

FMB09140 - Starfisher 840 Flybridge Fisher/Cruiser

This is an excellent opportunity to buy an almost 'as new' version of this highly popular entry into the flybridge cruising league. A reluctant sale presents a boat which has been very little used and is exceptionally well equipped. She is perfectly geared to the sports/fishing/cruising market and provides all of the comforts required to spend endless days visiting UK and foreign ports as well as exploring the mysteries and intrigue of the canal systems. This is a stable, highly manoeuvrable and robustly constructed sea-going boat and is perfectly suited to family fun, cruising holidays or serious fishing. A single 260hp 6 cylinder Turbo Yanmar on shaft represents a powerful but economical engine.

General

Built: 2003
 Builder: Starfisher
 Trim Tabs: Full width stainless steel vanes with Lectrotab pistons
 Hull: GRP Deep V
 Location: UK (South East)
