

FMB09141 – New Build Aluminium Catamaran

General

Build Time:10 weeks from when the Kit is cut.

Built to Lloyds & MCA Spec's

Dimensions

LOA: 10.00m

LWL: 8.00m

BWL: 1.18

BRD: 3.80m

DFT: 0.40m (Hull only)

Displacement: 5.7T (Approx. Full Load)

Power

Outboard size wants to be as large as the budget will extend to but can be specified to suit individual requirements, 150 hp per side could be considered a minimum for efficient cruising and 200 up to 250 would be more suitable.

Accommodation

Standard layout shows:

2 doubles fwd

Large single quarter berth aft to starboard

Heads/shower to port on the lower deck.

Foam cored fibreglass cabin top which gives the design a more rounded and

moulded look, is light weight and easy to build. The cabin top shape combines well with the rounded forward screen corners moulded out of acrylic or polycarbonate sheet, which can all be pre cut.

The main deck has a large dinette, the helm station and console, and a galley to port. The cockpit size is large and a simple layout for optimum fishing space and recreational use.
